**SUMMARY** | I am currently working towards my BS in Computing Security at Rochester Institute of Technology. My current plan is to complete multiple internships/co-ops to fulfill my major and to be prepared for the professional field while sharpening my skills in a dynamic organization. I am extremely motivated when it comes to working on projects and learning new skills. My focus is in automated deployment, monitoring, and security.

**EDUCATION** | **ROCHESTER INSTITUTE OF TECHNOLOGY, ROCHESTER NY**

Attending | Majoring in Computing Security | Projected Graduation December 2020

**SKILLS & ABILITIES** | Server & Network Configuration, Centralized Monitoring and Logging, Computing Security Policies, Basic Pen-Testing, Virtual Machine Configuration, Docker, Comfortable in CLI Environment, Bash & Powershell, Experience with all major OS (Win, Linux, Unix), VMware Infrastructure, Elastic Stack, Splunk, Ansible

Programming (Languages)

[Python] [Visual Basic] [Java][ C ] [Major Web Based | PHP]

**RELEVANT COURSES** | Networking Services & System Administration, Routing and Switching, Mechanics of Programming, CS 1 + 2, Network and System Audit, Network and Security Forensics, Cyber Security Policy and Law, Cryptography

**EXPERIENCE** | **IP.COM**

SECURITY DEV OPS (MAY 2019 - PRESENT)

Responsibilities include secure monitoring, auditing, development, and automated deployment. Built middleware to audit more cloud/local sources and provide greater visibility across the entire organization. This was achieved through primarily using the Elastic Stack, Group Policy, and Ansible. Additionally, participated in creating new GDPR specific policies.

**RIT ITS MANAGED ENDPOINT SERVICES**

(MAY 2018 – DEC 2018)

Responsibilities included customer service, management, and project work. Wide scope surrounding security, access, and device management through multiple systems such as AD GPOs

**PERSONAL BUSINESS**

WEB DEVELOPER (2016-PRESENT)

Providing services to local customers to update, secure, and redesign websites.

**ACTIVITIES** | IOT/Security/Networking Hobby Projects | Home Lab | Skiing | Hiking | Soccer

Member of RITSEC (Computing Security Club) | White Team Member in ISTS CTF 2017
